

# DE LUXE 515 UHK

## FLOORPLAN

Overall length	7.537 mm
Total width	2.300 mm
Technically permissible gross weight	1.700 kg

Note: The vehicles shown are model examples. Illustrations may vary.

## TECHNICAL DATA \*

Model	515 UHK	Awning circumference	10.120 mm
Overall length	7.537 mm	Beading (straight edge)	4.360 mm
Body length	6.353 mm	Number of axles	1
Overall width / Inside width	2.300 / 2.172 mm	Tyre size	195 / 70 R 15 C
Overall height / Interior headroom	2.641 / 1.950 mm	Number of berths (adults / children)	5 / 2
Maximum technically permissible laden mass	1.700 kg	Bed size, children's beds (length x width)	1.800 x 700; 1.850 x 700 mm
Mass in running order (-/+5%)	1.489 (1.415-1.563) kg	Bed size, drop-down bed (length x width)	2.000 x 1.290 mm
Maximum mass for optional extras	3 kg	Bed size, seating area bed conversion (length x width)	2.038 x 1.600; 1.890 x 1.275 / 980 mm
Technically possible increase in load capacity to	2.000 kg	Number of 230 V power sockets (single / double)	4 / 1
Body wall thickness (floor / roof / wall)	39 / 31 / 31 mm		

## HOBBYKOMPLETT

Chassis / Safety: Integrated 3rd brake light, Stabiliser hitch KNOTT, Overrun brake KNOTT ANS with automatic adjustment, Jockey wheel, Drawbar cover, One-key locking system, Rear fog light, Wheel shock absorbers, Tyre repair set, Heavy-duty supports, Licensed for up to 100 kph, Load indicator on the jockey wheel | Wheel Rims: Steel rims, silver with wheel covers | Windows: Front window with fully integrated pleated blackout blind and insect screen, Combi Cassette with pleated blind and fly screen, for all windows, Hinged window, can be opened, double-glazed and tinted | Body: Rooflight DOMETIC SEITZ, Midi-Heki 700 x 500 mm, with pleated blind and fly screen in living area, Rooflight DOMETIC SEITZ, Mini-Heki 400 x 400 mm, with pleated blind and fly screen in children's sleeping area, Rooflight DOMETIC SEITZ, Mini-Heki 400 x 400 mm, with pleated blind and fly screen above drop-down bed, Rooflight DOMETIC SEITZ, Micro-Heki 280 x 280 mm, with pleated blind and fly screen in washroom, One-piece entrance door, extra wide with triple-point locking, window, waste bin, compartments and pleated insect screen in door frame, design dependent on model, Grab handle, Entrance step, Gas locker, accommodates 2 x 11 kg bottles, Integrated awning rail, LED awning light, Wheel arches, thermally insulated, Awning rail rain deflector with water drainage, front / rear, Wheel arch guard with rubber lip for draught skirt, Locker door, THETFORD with central locking, 752 x 310 mm, lockable, Winter vents for seating area, lockers and beds | Living area: Single-post lift table, Wall units with plenty of storage space and soft-close doors, Set of Hobby glasses |

Living area: Wardrobe with interior light, Compartment under seating area, TV unit with cabinet | Furniture finish: Baron Elm / White Matt / Grace / Grey | Upholstery combinations: Turo | Kitchen: Refrigerator DOMETIC, 133 litres, 10 series, including 12-litre freezer compartment, double-hinged, absorption technology, Cooker and sink in stainless steel with 3-burner hob, electric ignition and split glass cover, Cutlery insert, Kitchen window roller blind with integrated power sockets and kitchen light, Drawers, generously sized, fully extendable, with soft-close and push lock mechanisms | Sleeping area: Drop-down bed, Children's bed, 2 tiers with guard and ladder, Bed extension for the seating area | Washroom: Compact washroom with washbasin and toilet, design dependent on model, Cassette toilet THETFORD | Water / gas / electricity: Waste water tank, 23.5 litres, rollable, Fresh water tank, 47 litres, Submersible pump, Gas regulator with over-pressure protection (DIN EN 12 864) and hose line, Gas control taps in kitchen unit, Control panel for lighting system and tank display, Light switch for children, Electronically controlled 12 V / 350 VA power supply, Ground fault circuit breaker, Antenna socket with co-axial cable in living area, Passenger vehicle connector JAEGER, 13-pole, Smoke alarm | LED lighting: Corner shelves with lighting in seating area, design dependent on model, Reading lights in sleeping area, Reading lights in children's seating area, Children's bed lights, dimmable with a night light and A/C USB ports | Heating / air conditioning: Heating system TRUMA S-3004 with warm air unit and 12 V fan, Boiler TRUMA for hot water supply, Pre wiring for roof-mounted air conditioning unit | Smart Home: HOBBY CONNECT, controls for on-board

## OPTIONAL EXTRAS

### Chassis / Safety

Spare wheel with holder, instead of tyre repair set, underfloor mounting	26 kg
Stabilisation system KNOTT ETS Plus	5,7 kg

### Increase / decrease in load capacity

Increase in load capacity to 1,750 kg, without any technical modifications	
Increase in load capacity to 1,800 kg, without any technical modifications	
Increase in load capacity to 2,000 kg, with technical modification for single-axle vehicles, including silver alloy rims	40 kg
Increase in load capacity to 2,000 kg, with technical modification for single-axle vehicles, including black alloy rims	40 kg

### Wheel Rims

Alloy rims silver, up to model 595
Alloy rims black, polished, up to model 595

### Body

Bicycle rack THULE, for drawbar, 2 bicycles, loading capacity 60 kg	10 kg
Garage under bunk bed (not in conjunction with hot water heater ALDE, colouring board under children's bed removed)	5 kg

### Living area

Carpet in the living area, removable	10 kg
--------------------------------------	-------

### Upholstery combinations

Pico
------

### Kitchen

Oven THETFORD with electric ignition, grill and interior light, 36 litres	15 kg
Extractor hood DOMETIC including Hobby 10-stage speed control	3 kg

### Water / gas / electricity

City water connection	0,5 kg
Gas pressure regulator TRUMA DuoControl including automatic changeover, crash sensor and gas filter	2,2 kg
Smart Trailer System (vehicle levelling and fuel level indicator via E-Trailer app)	0,8 kg
Exterior awning socket, including 230 V output, satellite / TV connection	0,4 kg
External gas socket	1,5 kg

Electric boiler TRUMA, 14 litres (locker door can be removed)	15 kg
Water pump with additional switch	0,4 kg
Autonomy package including charge controller with booster, battery (AGM, 95 Ah), battery sensor and battery case	29 kg
Autonomy package with lithium battery SUPER B Epsilon, 12 V / 150 Ah	19,1 kg
Pre wiring for autonomy package including charge controller with booster, battery sensor and battery case	2,8 kg
Dual USB charging socket	0,1 kg

## LED lighting

Ambient lighting, design dependent on model	0,3 kg
---	--------

## Heating / air conditioning

Auxiliary electric heater TRUMA Ultraheat including CI-BUS	2 kg
Underfloor heating up to model 540	4 kg

## Multimedia

Articulated TV bracket including required connections	2 kg
---	------

\* Please note the following when consulting the technical details: The maximum technically permissible laden mass is the gross vehicle weight specified by the manufacturer, which must not be exceeded under any circumstances while driving the vehicle. In general, the "mass in running order" corresponds to the weight of the standard, empty vehicle in accordance with the manufacturer's specifications, and in the case of motorhomes and vans, includes the fuel tank filled to at least 90%, the mass of the driver (which is calculated at 75 kg), the fuel and liquids as well as the mass of the body, the cab, the trailer hitch (if fitted as standard) and the tyre repair set. For caravans, the mass in running order includes the mass of the vehicle equipped with standard equipment in accordance with the manufacturer's specifications, including fluids and the mass of the body, additional trailer hitches (if fitted as standard) and the tyre repair set. This is a calculated value, which is subject to legally permissible tolerances of up to  $\pm 5\%$  (see note in brackets). Since the occurrence of legally permissible tolerances has a direct impact on the remaining loading capacity, these tolerances must be taken into account when configuring the vehicle. The maximum mass for optional extras is a value calculated for each layout that HOBBY uses to limit the available mass for optional extras that can be ordered and fitted at the factory. The aim of this value is to ensure that the legally prescribed minimum loading capacity is observed. If selecting optional extras increases the actual vehicle mass to such an extent that there is no longer sufficient available mass between the actual vehicle mass and the maximum technically permissible laden mass for the passengers (only with motorhomes and vans) and the minimum loading capacity, depending on the layout, you can choose to increase the load capacity of the vehicle (increase the maximum technically permissible laden mass) during the configuration. Alternatively, you can reduce the permitted number of people while driving (only for motorhomes and vans) and/or deselect optional extras. Otherwise, you will be unable to continue configuring the vehicle or proceed with the ordering process. For motorhomes and vans, the maximum number of permitted people while in transit specified in each case is dependent on the weight and axle load. It may be reduced when optional extras and accessories are installed, in which case individual seats must be removed to ensure the legally prescribed minimum loading capacity is observed. A weight of 75 kg is calculated for each person travelling, regardless of how much the passengers actually weigh. Since the driver is already included in the mass in running order, he/she is not included in the mass of the passengers. The capacity of the fresh water tank is reduced while taking into account the driving restriction (valve on the fresh water tank).

All information on variants, prices and weights can be found on our homepage.
